Certain aisles were not wide enough to allow access to the forklift.

1.3. Solution

1.3.1. The Contractor shall promptly advise the Contracting Officer whenever it may know, or have reason to believe, that the estimated cost of construction for the facilities being designed will exceed or is likely to exceed the design-to-budget cost.

In addition to the clause of FAR 52.236-22, if at any time it is determined that the estimated cost of construction exceeds the design-to-budget amount, the Contracting Officer may direct the Contractor to perform redesign and other services as needed to reduce the estimated cost of construction to an amount that is within the design-to-budget amount. The Contractor shall perform redesign and other services no additional cost to the Government. The Contractor shall not be required to perform such redesign and other services at no cost to the Government if the Contracting Officer determines that the estimated cost of construction exceeds the design-to-budget amount for reasons beyond the reasonable control of the Contractor.

(1) Confirm that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance;
(2) Countermand any communication regarded as a change;
(3) Deny that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance; or
(4) Advise the Contractor what additional information is required and when, and establish the date by which it should be furnished and the date the Government will respond.

G.5.6. Equitable Adjustments.

If the Contracting Officer confirms that the Government conduct effected a change as alleged by the Contractor, and the conduct causes an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this contract, the Government will modify the contract to make an equitable adjustment -

(1) In the contract price or delivery schedule or both; and
(2) Any other term of the contract affected.

In the case of drawings, designs, or specifications that are defective and the Government is responsible, an equitable adjustment shall include the cost and time extension for the delay reasonably incurred by the Contractor in attempting to comply with the defective drawings, designs, or specifications before the Contractor identified, or reasonably should have identified, such defect. When the cost of property made obsolete or excess as a result of a change confirmed by the Contracting Officer under this clause is included in the equitable adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of the property. The equitable adjustment shall not include increased costs or time extensions for a delay resulting from the Contractor's failure to provide notice or to continue performance as provided above.
G.5.7. Failure to agree to any adjustment shall be a dispute under the Disputes clause. Nothing in this section shall relieve the Contractor from proceeding with the work.

SECTION K - EVALUATION CRITERIA

K.1.0. EVALUATION PROCESS

The Government will select an architectural and engineering contractor following Subpart 36.6 of the Federal Acquisition Regulation. Award will be based on whether the U.S. Government is able to negotiate a fair and reasonable price for these services.

If a mutually satisfactory price cannot be negotiated, the Contracting Officer shall notify the quoter that negotiations have been terminated. The Contracting Officer shall then initiate negotiations with the next firm on the final selection list. This procedure shall continue until a mutually satisfactory contract has been negotiated. If negotiations fail with all selected firms, the Contracting Officer shall refer the matter to the selection authority who, after consulting with the Contracting Officer as to why a contract cannot be negotiated, may direct the evaluation board to recommend additional firms.

K.2.0. FIRM FIXED PRICES

The Offeror shall propose firm fixed prices for the deliverables listed in Section A and fixed loaded hourly rates for additional services. Proposals that do not include firm fixed prices cannot be evaluated and will be rejected.
