

Medical Resources in Santiago, Chile

This listing of Health Care Providers and Medical Facilities is provided as a starting point for American citizens in Santiago. Although the Embassy cannot vouch for or recommend any specific provider or facility, these facilities have a history of use by US Embassy personnel and their families in the past. The names of providers which appear below have demonstrated qualifications similar to those found in the U.S. and generally speak English. This list is not meant to be definitive, nor does it represent either a guarantee of competence or an endorsement by the Department of State or the Embassy. Likewise, the absence of any individual or institution on this listing does not imply lack of competence.

Two modern facilities that are a combination of multiple speciality clinic and hospital and open 24 hours a day are listed below. Both of them offer walk in facilities for treatment of acute problems as well as consultation by appointment.
