STATEMENT OF WORK
FOR

Kitchen Equipment Preventive Maintenance
on Cafeteria Main Kitchen

Chancery Building – Embassy Compound
Santo Domingo, Dominican Republic

December 15, 2016
INTRODUCTION

1.1 The United States Department of State (DOS) requires preventive maintenance services for the installed kitchen equipment in the main cafeteria area. The purpose of the required services is to have all equipment in operation. This work shall include all needed labor and equipment knowledge to review and perform routine maintenance, and also corrective maintenance, previous notification and agreement with the Facilities Management section of the US Embassy.

1.2 The Contracting Officer’s Representative (COR) Point of Contact for matters related to this SOW is as follows:

U.S. Embassy Santo Domingo
Ramón E. Portes
Lead Mechanical Engineer
OBO/CFSM/FAC/PS
(o) 809-368-7609
(m) 809-390-0830
(e) PortesRE@state.gov

1.3 A pre-bid walk-thru will be coordinated with invited bidders by GSO Procurement, the COR and the Facility Manager (FM). The maintenance schedule, along with other miscellaneous project specifics will be reviewed during the walk-thru.

GENERAL REQUIREMENTS

2.1 Basic Work Summary. The Contractor shall provide labor and expertise knowledge to perform:

a. One visit every other week to perform routine preventive maintenance on the kitchen equipment installed in the Chancery Building second floor cafeteria. Installed equipment is listed at the end of this document, it should be confirmed during the site visit and the final list will be signed by the COR and the winning bidder.

b. Produce a detailed report for each visit performed.

c. Identify if any installed equipment needs corrective maintenance. In that case, it must be reported to the COR or the FM, listing the parts needed and quoting the parts and labor to repair the equipment. A separate repair order will be produced prior to the fixing repair.

2.2 Location. The services shall take place at the Embassy Compound of the United States in the Dominican Republic, Ave. República de Colombia 57, Altos de Arroyo Hondo, Santo Domingo, Dominican Republic.

2.3 Tools and Equipment. The Contractor is responsible for bringing all needed tools, cleaning materials and any specialized equipment to the Work site.
2.4 **Safety.** The Contractor is responsible for the safety of for his/her employees, and for conduct of the work in a manner that prioritizes the safety of Embassy residents, employees, and visitors.

2.5 **Damage.** Protect furniture, furnishings, carpets, and any exterior and interior finishes from damage. Damage caused by the Contractor to architectural and finishes will be returned to original condition by the Contractor.

2.6 **Interruptions of Service.** The Contractor shall maintain existing systems in service to the maximum extent possible and coordinate interruptions of any utility services in advance with the COR.

2.7 **Drawing, Specifications and O&M Manual Files.** If needed for reference, available existing design/construction documentation, including Drawings, Specifications and O&M Manuals of the installed equipment shall be shared by the COR if requested by the Contractor.

### 3.0 SCOPE OF WORK

3.1 Provide qualified technicians, tools and materials necessary to perform routine preventive maintenance on all installed kitchen equipment in the second floor cafeteria of the Chancery Building. The schedule and type of the required preventive maintenance is listed in the O&M Manuals, they will be shared with the Contractor by the COR. Post is looking for one visit every other week to perform inspection and routine maintenance. With each visit, a full report shall be delivered to the COR for follow up. It is up to the Contractor to propose if invoicing will occur with every visit or every month.

3.2 If an equipment fails, it is required a response from the Contractor within the next 24 hours to address the issue after proper notification. A valid response from the Contractor shall be a site visit of a qualified technician to evaluate the equipment. After the evaluation the Contractor shall produce an estimate of parts, including delivery if it is out of stock, labor and other indirect cost to repair the equipment. A separate repair order will be produced and delivered to the Contractor to proceed with the repair.

3.3 All waste, debris, trash and hazardous materials will be removed from the property and disposed of properly. Materials shall be removed in every visit. Locations for dumpsters are not guaranteed. Access for trucks/dumpsters shall be coordinated with the COR and FM.

3.4 Installed equipment: We have included Attachment A, that list all the installed equipment in the Kitchen. More detailed information about each equipment can and will be provided by the COR if the Contractor needs it.
