DB800

The DB800 has an 8 cubic foot capacity which will give you approximately 1.5 hours of continuous blast time between refills. This machine is great for everything from small jobs like blasting cars and trucks to large jobs and even industrial projects. This machine is a Texas Edition, meaning all parts are made of hardened steel. It also features a water level overflow valve which makes filling the machine fast and easy, with no need to measure the water going in.
