3. Information for overseas tax filers

Who Must File?

All U.S. citizens and resident aliens must file a U.S. individual income tax return, even if they permanently live outside the United States and may not owe any tax because of income exclusion or tax credit.

The Internal Revenue Service (IRS) has provided the following guidance for U.S. citizens abroad preparing for the 2015 tax filing season. This IRS guidance is posted under [Federal Benefits and Obligations](#) on travel.state.gov.

4. Information on New Vietnamese Immigration Law

On **January 1, 2015**, the new law on Entry, Exit, Transit, and Residence of Foreigners in Vietnam came into effect. The new law may affect procedures for obtaining and using Vietnamese visas by foreign citizens. Under the new law, individuals can only use their Vietnamese visa for the purpose that it was granted (i.e., an individual may not enter Vietnam as a tourist and then seek to change their visa class to be able to work or study). Those intending to work in Vietnam must first obtain a work permit *before* applying for their work visa. For further information about these and other changes under the new law, please contact local immigration authorities or the Embassy of Vietnam in Washington DC.

5. U.S. Citizen Services visit to Da Nang

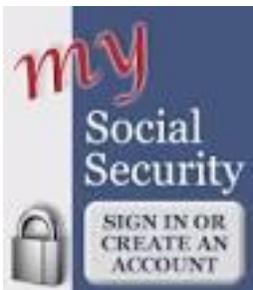

Officials from the U.S. Citizen Services unit in Ho Chi Minh City will offer consular services at the following location:

Da Nang on March 11, 10:00 AM – 1:00 PM at the Bread of Life Restaurant, 4 Dong Da Street, Da Nang.

Consulate officials will offer notarial services, deliver federal benefits checks, and U.S. citizens will be able to apply for U.S. passports. Federal benefits annuitants may sign in during the visit.

At this time, officials will not be interviewing for consular reports of birth abroad. Also, visa and immigration services will not be provided. Only the services listed above will be available during the visit to Da Nang. For additional information concerning applying for U.S. passports and notary services please see our Website at: <http://hochiminh.usconsulate.gov>.

6. Notice to SSA beneficiaries in Vietnam

The Social Security Administration has notified us that as of January 1, 2015, SSA beneficiaries will only need to visit the Consular Section at the U.S. Embassy in Hanoi or the U.S. Consulate General in Ho Chi Minh City once every three months to sign for their benefits instead of every month. Benefits will continue being delivered on their regular schedule. If you have questions about the change or any other non-emergency U.S. citizen service, you can contact us at http://vietnam.usembassy.gov/contact_acs.html in Hanoi or http://hochiminh.usconsulate.gov/contact_acs.html in Ho Chi Minh City.

7. Beware of Theft

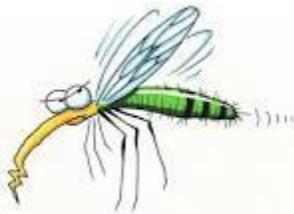

Pick pocketing and bag snatches are a constant threat in Vietnam. When on the streets be mindful of your possessions. Keep them close, and don't let them out of your sight. The thieves are faster than you can imagine. An unattended bag can be gone in an instant. Do not carry unnecessary ID (such as your U.S. driver's license) nor all of your credit cards with you. If you need to carry a credit card, carry just one. Leave the others in your hotel safe, hotel safe-deposit box, or at home. It is also wise not to carry all of your cash with you.

Also, don't carry your passport unless you absolutely have to. Carry a copy of your passport and visa and leave the passport in your hotel safe or at home.

A new trend we are seeing is thieves on motorbikes hanging out near hotel entrances. When a passenger is getting out of a taxi and is distracted with paying the driver, retrieving bags, etc., the thief grabs the handbag or backpack and flees.

8. Staying Healthy and Safe Dengue Fever

Even though the rainy season has ended, Dengue Fever remains a high risk throughout Vietnam.

Dengue virus is present in all tropical and many subtropical areas worldwide. The mosquitoes that carry dengue bite most often in the morning and evening and during hot, wet times of the year. However, they can bite and spread infection all year long and at any time of day. Apply insect repellent sparingly to exposed skin. An effective repellent will contain 20% to 30% DEET (N,N-diethyl-m-toluamide). DEET in high concentrations (>30%) may cause side effects, particularly in children. Therefore, avoid formulations containing >30% DEET. Use aerosols in an open space to avoid inhalation. Avoid applying repellent to the hands of children. Wear long-sleeved clothing and long pants if you are outdoors during the day and evening.

Ebola

Eat, drink, and be healthy

Thinking about sampling the native cuisine? Of course you are! Enjoying local delicacies is part of the wonderful experience of overseas travel, but eating the wrong things could make you very sick. Many countries don't have the same food handling and preparation standards found in the United States. Food that is not stored or cooked properly could make you sick. Do your research on which local foods and drinks to avoid.

Stay away from raw foods.

Choose your local restaurants carefully. If it looks dirty in the dining room, it could be worse in the kitchen.

Local water supplies could also be a breeding ground for bacteria. Always use bottled water (even to brush your teeth), and beware of fake bottled water – tap water sold as bottled. Be aware that ice may also be made from local tap water.

Practicing healthy habits, like washing your hands regularly, will help ensure that you stay healthy and enjoy your entire trip.

While you are keeping your eye on what you are drinking, make sure you keep an eye on who's pouring it as well. There have been cases in which certain drugs have been added to a person's drink without that individual's knowledge or consent. These drugs can make you sleepy, unaware, or even unconscious. Remain aware of your drinks and:

Don't drink anything you did not open yourself or that you didn't see being opened or poured by a bartender. Always watch your drink at parties and bars and get a new one if you leave it unattended for a while.
