“THIRTY YEARS AGO, WE COULDN’T KNOW THAT SOMETHING CALLED THE INTERNET WOULD LEAD TO AN ECONOMIC REVOLUTION. WHAT WE CAN DO -- WHAT AMERICA DOES BETTER THAN ANYONE ELSE -- IS SPARK THE CREATIVITY AND IMAGINATION OF OUR PEOPLE.”

PRESIDENT BARACK OBAMA
Welcome to this year’s annual U.S. Embassy Economic Conference “Creative Minds: The Importance of the Creative Economy in the US-Irish Relationship”. We will gather together a fascinating mix of people to explore the role of creativity in spurring innovation and growth.

The event is part of my Creative Minds series which aims to engage prominent American and Irish artists and innovators to connect with the next generation of stakeholders in the U.S.-Irish relationship.

The conference will invite leaders in the arts, business, science and research to share insights on how to build organizations and communities that can learn, grow, and generate new ideas. This year’s event will hear from Creative Minds speakers in technology, science, education, policy, food, design, social engagement, and culture who are driving the dynamism in the U.S.-Irish creative economy.

Welcome to Deerfield and thank you for participating in this gathering.
