## MEDICAL AND DENTAL CARE IN THE COMMUNITIES

### Medical Roster

The following is a list of hospitals, physicians, laboratories, and x-ray facilities compiled by the Health Unit.

**The list is not meant to be exhaustive or definitive nor does it represent either a guarantee of competence or endorsement by the Department of State or the American Embassy.** It does indicate that they have been utilized by the American community in the past. Retention on this list depends upon a combination of factors including availability, training, and positive assistance in previous consultations, etc. Patient input, both positive and negative, regarding experience with local health care providers is always welcome and provides additional information to assist in expanding or contracting this list. More physician/dentist contacts for referral are available in the Health Unit. **The ultimate choice of a provider rests with the individual seeking medical assistance.**

It is advisable to query the physician/lab about the price of the service *before* accepting treatment. These bills may be submitted to your health insurance company for reimbursement.

The asterisks next to each physician's name indicate our understanding of their English speaking ability.

**\*\* Good Command of English      \* Fair Command of English**
