If more than one contractor has received an award for these services, the following procedure shall govern the issuance of individual orders/GBL. No work shall be performed without a GBL being issued to the contractor by the Contracting Officer.

1. As the need for services arises, the U.S. Government will develop a price estimate. If the estimate does not exceed US$3,500 the U.S. Government will follow the procedures in paragraph (2) below. If the estimate exceeds US$3,500, the U.S. Government will follow the procedures in paragraph (3) below.

2. Orders not exceeding US$3,500 – The U.S. Government will select a contractor for issuance of the order. This decision will be based on the U.S. Government best interests, which may include factors such as estimated price and past performance record.

   - Whether or not the contractor is selected for an individual order, the U.S. Government shall not be liable for any claim from the contractor for the costs of performing a pre-shipment survey. Selection will be based on a combination of estimated price and past performance information or;
   - If the Contracting Officer can establish which Contractor price will result in the lowest price for the individual order without requesting a pre-shipment survey, the U.S. Government will make its award based upon the prices set forth in the SOS and past performance information gained as a result of contractor performance under previous Contract.

4. The Department of State does have an Acquisition Ombudsman who will review any complaints by contractors to ensure that all contractors are afforded a fair opportunity to be considered for the GBL awards, pursuant to the procedures for award of GBL.

5. Exceptions to the procedures in paragraph (3) above:
   - The agency need for the required services is of such urgency that providing such competitive opportunity would result in unacceptable delays;
   - The GBL should be issued on a sole-source basis in the interest of economy and efficiency as a logical follow-on to an order already issued under this SOS, provided that the awardees were given fair opportunity to be considered for the original GBL.

3. Determination of Weight

Actual weight obtained from certified scales shall be used for determination of employee’s weight allowance.

a. Date
b. Name of the weigh master or official responsible for the weighing (with a signature),
c. Location of scale,
d. Identify tare, net or gross weight,
e. Name of the TSP, shipment number, and
f. Name of the owner of the effects.

These certificates or weight tickets shall be subject to bi-annual inspection by representatives of the U.S. Embassy Freetown. The QASP Quality Assurance and surveillance plan provides a method the Contracting Officer (CO) to monitor TSP performance, advise the TSP of unsatisfactory performance and notify the contracting officer of continued unsatisfactory performance. The TSP, not the USG is responsible for management and quality control to meet the terms of the solicitation.
1. The USG primary quality assurance procedure for this Solicitation is employee complaints. If the USG has to repeatedly request the Packer to correct work that was incorrectly performed, and it is clearly the fault of the Packer, suspension from the Solicitation will result.

2. When the Packer fails to perform its contractual obligations, the Packer has committed a solicitation breach. The USG retains the right to prescribe terms that result from a contract breach. Depending on the severity of the breach, such terms may range from price adjustment or deductions to a termination.

3. The monitoring of TSP performance is performed by the COR who will receive all complaints and document from all clients regarding services provided. If appropriate the complaints will be discussed with TSP.

4. The performance standard is that no more than 1 complaint is received a month. The COR shall notify the Contracting Officer of the complaints so that the contracting officer may take the appropriate action as listed above.
