IMPORTANT NOTICE TO IMMIGRANT VISA APPLICANTS CONCERNING VACCINATION REQUIREMENTS

United States immigration law requires immigrant visa applicants to obtain certain vaccinations (listed below) prior to the issuance of a visa. Panel physicians who conduct medical examinations are now required to verify that visa applicants have met the new vaccination requirements, or that it is medically inappropriate for the visa applicant to receive one or more of the listed vaccinations:

- Hepatitis A
- Hepatitis B
- Influenza
- Influenza type B (Hib)
- Measles
- Meningococcal
- Mumps
- Pneumococcal
- Pertussis
- Polio
- Rotavirus
- Rubella
- Tetanus and diphtheria toxoids
- Varicella

In order to assist the panel physician, and to avoid processing delays, **all immigrant visa applicants** should have their vaccination records available for the panel physician's review at the time of the medical examination. You should consult with your regular health care provider to obtain a copy of your immunization record, if one is available. If you do not have a vaccination record, the panel physician will work with you to determine which vaccinations you may need to meet the requirements. Certain waivers of the vaccination requirements are available upon the recommendation of the panel physician.

Only a physician can determine which of the listed vaccinations are medically appropriate for you, given your age, medical history, and current medical condition.
